What is career guidance?

Career guidance involves gaining insight into one's own resources and opportunities within educational and career choices.

Are you:

- unemployed? Now what?
- looking for a new job?
- a recent graduate or considering a new education?
- a person with a lot of practical experience but little formal education?
- on sick leave and unsure of whether you can return to your present employer?

Please contact us!

Buskerud Careers four centres offer professional and free of charge career services to adults; 19 years and older.

Making career decisions

choices

How do I shape my career?

- by reflecting upon my capacities and motives - *What can I do? - What do I want?*
- by exploring work and educational paths - *Where can I do that?*
- by improving my career competencies - *How can I do that?*
- by networking - *Who can help me?*
